SUMMARY

Aspiring Software Developer with a strong foundation in front-end and back-end technologies. Passionate about building scalable applications, database management, and system analysis. Eager to contribute to innovative teams, solve real-world challenges, and grow in the dynamic field of technology.

SKILLS

- Front-end: HTML, CSS, Bootstrap, Tailwind CSS, React
- Programming: Python
- Back-end: Flask
- Databases: PostgreSQL, SQLite
- Microsoft Office Suite (Word, Excel)
- Strong communication & collaboration skills
- Time management & problem-solving

PROJECTS

Portfolio - **[View Here](#)
Description: A personal portfolio showcasing projects, skills, and experience in software development.

EXPERIENCE

Software Developer student | Techcamp Kenya

August 2023 - Present | Nairobi, Kenya

- Developed and implemented web applications using Agile methodologies.
- Worked on database management and API integration using Flask and PostgreSQL.
- Assisted in debugging and optimizing software for better performance.

- Conducted testing & validation to ensure applications met industry standards.
  Key Accomplishments:
    - Improved system performance by optimizing queries and backend logic.
    - Contributed to a successful project launch by implementing key features.

EDUCATION

Moringa School
Certificate in Software Engineering, 2024

Techcamp Kenya
Certificate in Software Development, 2023

VOLUNTEER EXPERIENCE

- **Community Coding Mentor:** Conducted workshops to teach basic coding skills to high school students.
- **Tech Club Member:** Organized hackathons and coding challenges.
